6 Napa Valley wine regions where you can taste on foot

### **Downtown Napa**

**Downtown Napa is in the middle of an exciting renaissance, with new tasting rooms popping up every week. Here are five of our favorites.**

The super luxe Acumen (1315 First St., Napa) tasting salon features a rotating art gallery, barrel samples on tap, and recycled furniture pieces. Our faves: a bar repurposed from a fallen vineyard oak tree, and chandeliers crafted from steel tank heads. The wines are just as refined, sourced from one of Napa Valley's most prized and under-the-radar mountainous regions, Atlas Peak.
