

**2021 Acumen PEAK Edcora Vineyard Cabernet Sauvignon - 100 Points**

“After tasting blind and arriving at a big score, I remember that I have given this particular bottling the big score in two previous vintages — 2015 and 2016 — and right out of the gate, this vintage appears to be in the same rarified air as those two wines. There is so much going on here, and it’s all just starting to show itself through the structured backbone. The Cabernet hallmarks are here, with lively blackberry and cassis, rich oak spice, crushed rock and earthy mineral notes that are an Atlas Peak signature, all fine tuned and beautiful. Dare I say this is a bargain when it comes to high end Napa Valley Cabernet? I do so dare — without reservation. Transcendent wine! 100% Cabernet Sauvignon, clones 15 and 169.”

**2021 Acumen PEAK Cabernet Sauvignon - 97 Points**

“I have been waiting with bated breath for the 2021 releases from this producer, and the arrival does not disappoint in any way. This multi clone blend is deep and complex, with layered blackberry, cassis, crushed rock, mild dried herb and a little bright kiss from a dash of Merlot in the mix. This program has seen some top notch winemaking talent over the last dozen years, and I can imagine a stack of resumes waiting their turn for a crack at this sourcing. That said, I picture Phillip Corallo-Titus keeping a good hold on the seat. He’s got the touch.”
